**ABOUT US:** Dr. Thomas Entwistle is a Chiropractic Physician and founder of Central Florida Accident and Injury, where we are dedicated to serving our patients through clinical excellence in non-surgical spinal and injury care. We always have you, our patient, in mind and work hard to create a welcoming and healing environment that will soon have you feeling like part of the family. **EDUCATION:** Dr. Entwistle is an Honors Graduate of Boston College. His graduate studies included programs at Georgetown University and then New York Chiropractic College, where he graduated with honors. **PRACTICE FOCUS/SPECIALTY:** Dr. Entwistle grew up in New York and practiced in Connecticut for many years before relocating to Central Florida. With over 25 years of experience, he and his dedicated team utilize the latest and most advanced technology to treat injuries caused by car accidents and other trauma; neck and back pain; knee, shoulder, wrist, hip and foot

pain; herniated and bulging discs; as well as headaches, arthritis and neuropathies. **INNOVATIONS:** Are you suffering daily pain that makes simply getting out of bed a difficult task? Are pain medications only masking the problem and are you worried about their long-term side effects? Has surgery failed you or is it simply not an option? Dr. Entwistle and his team at Central Florida Accident and Injury offer a unique, multi-pronged high-tech approach that is drug-free, surgery-free and provides effective pain relief. Among the therapies we offer are computerized spinal decompression, Class IV laser therapy, myofascial acoustic compression therapy, physical therapy and rehabilitation, Graston therapy, and massage therapy. On-site digital radiography enables us to more thoroughly evaluate each patient's unique condition. **PROFESSIONAL MEMBERSHIPS:** Florida Chiropractic Physician Association, Florida Chiropractic Association, Kissimmee/Osceola Chamber of Commerce.
